

Challenge 3: Host a rummage sale of excess school supplies for community members (1 credit)

As students, teachers, and staff have their eyes set on summer, the end of the school year becomes prime time for schools to produce an excessive amount of waste. However, you and your Green Team can offset this by taking those unwanted items from classrooms and lockers to sell them back to the community. Any extra items can then be donated to a thrift store, such as Good Will or Salvation Army. While the end of the academic year is a good time for rummage sales, you can also do it right before the beginning of the school year for parents who are looking for supplies heading into the new academic year. Click [here](#) for tips and advice on how to run a successful school rummage sale. To receive credit for this challenge, your semester report will have to include:

- A picture of your school-wide rummage sale
- The dollar amount of sales your school made in your rummage sale (optional)
