

**Challenge 4:** 75% of science teachers provide 1 recycling-related lesson plan in a semester (2 credits)

We know teachers have very busy schedules, and that there are many state standards that need to be adhered to. With that in mind, it may seem like this challenge is too daunting to tackle, so we thought on our end, we could provide [educator-developed lesson plans](#) that adhere to numerous Indiana academic standards. To receive credit for this challenge, your semester report will have to include:

- A completed [form](#) with signatures from all teachers who participated in the challenge, as well as which lesson plan number they used. If teachers used a lesson plan that is not included on the SWMD's website, simply have them list the title of the lesson plan.
