

**Challenge 5: 50% of teachers provide 1 recycling-related lesson plan in a semester (2 credits)**

We realize that in most elementary schools, there are no designated science teachers, so we thought we would provide this challenge for elementary schools that would like to receive credits for classroom lesson plans. Our [lesson plans page](#) will be essential for your school to complete this challenge as well. Schools above the elementary level can also opt to complete this challenge, instead of challenge 5.

To receive credit for this challenge, your semester report will have to include:

- A completed [form](#) with signatures from all teachers who participated in this challenge. Same guidelines from challenge 5 apply to this one.
