

Challenge 1: Create a Green Team (1 Credit)

A Green Team is a cohort of teachers that lead recycling efforts school-wide. While it is not required to complete the challenge, it is encouraged that your Green Team members represent different grade levels/subjects in your school. The more diverse your team is, the further your reach can be to the entire school. Activities for your Green Team can include other challenges that would go toward credits. We will also accept members of your school's PTO as members too if you wish to include them. Click [here](#) for instructions on how to establish a green team and other resources.

To receive credit for this challenge, your semester report will have to include:

- 3 Meeting Minutes with meeting dates and items discussed
- List of Green Team members
