

**Challenge 4: Host a school-wide recycling competition with a corporate/nonprofit partner (2 Credits)**

Nothing gets kids more motivated than a competition! Luckily, there are multiple organizations, both local and national, that help schools organize competitions around recycling. Here are just a few ideas, but feel free to find another partner that is the best fit for your school.

**Recycle Bowl** (Keep America Beautiful): Recycling is one of the easiest and most effective actions ANYONE can do to protect natural resources, conserve energy, reduce greenhouse gas emissions, and create jobs. Recycling also provides materials that are made into new products. Want to ignite recycling in your school? Friendly competition is a proven way to motivate young people toward adopting sustainable behaviors. Through Recycle-Bowl, we hope to galvanize or improve recycling in elementary, middle and high schools across America.

**Recycle Rally** (Pepsi. Co): Whether you've been recycling for years or just recently initiated the capability to recycle, Recycle Rally will help boost the excitement and provide an array of tools to make recycling a big deal in your school.

**Milk Jug Collection** (Polywood LLC.): Create some friendly competition between classrooms to see which groups of students can collect the most milk jugs and win a bench for their school. We'll even provide a pizza party for the winning classroom!

To receive credit for this challenge, your semester report will have to include:

- A screenshot of a confirmation email from your corporate/nonprofit partner
- Pictures from your school-wide event (optional)
